

## C. N. R. MAY BUILD INTO BASSANO

### ANGELICAN CHURCH ALMOST COMPLETED

Lumber Arrives and Construction Will Be Quick

#### READY IN FOUR WEEKS

Bishop Pytham of Calgary Will Perform Dedication Services

With the delayed lumber being unshipped, the new church of England at the corner of Fifth avenue and Fifth street will be ready for occupation in about thirty days.

Arrangements have already been made for His Lordship, the Bishop of Pytham to perform the dedication services and the congregation fully expect Bishop Pytham at Bassano in about a month.

The building committee by a distinctive finished office, the intention being to make the old church serve the part of church in the new structure. Mr. H. W. Pytham is actively engaged in collecting the spread of the congregation and a large circle will be ready to take advantage as soon as ever the new church is opened.

### GRAIN CUTTING IS DELAYED BY RAIN

But Record Crop is Anticipated For Bassano District

The frost of Aug. 29, which came over into the hearts of all owners of green stuff in the Province does not appear to have had any bad effect on the grain in the Bassano district, and cutting is in full swing.

Reports received from all sides show that there was a very small percentage of green stub in the vicinity and that harvesting some independent patches was too far advanced to feel what frost there was. H. W. Patten declares this year's frost was three times lighter than the one that did so much damage on Aug. 28 last year, but of course this season the grain is very much further advanced.

Practically all wheat, oats and barley from the border north to Corvallis is in process of being harvested. Flax is still heading, and is all practically out of danger and with a little more, the farmers will be cutting next week.

The present spell of wet is hampering operations but not doing material harm.

### Report Received in Calgary Says C. N. R. Will Change Vegreville-Medicine Hat Line to Reach Bassano.

Information of the definite intention of the C. N. R. to build through the "Y" junction into Bassano has apparently been received in Calgary from the accompanying story in the West-Telegram.

Involving the western section of the Canadian Pacific Irrigation branch, cutting the right through the "garden spot" of the C. P. R. line, which, that company has built up at the expense of millions of dollars, the Canadian Northern line, formerly projected to run from Vegreville south to Medicine Hat and then east to Saskatchewan, has been changed. For weeks past engineering parties have been working on a new route for the line and it is now stated that the provincial government has approved of the new route which will bring the line south from Corvallis instead of Vegreville, passing through Hanna on the southern Calgary line of the Canadian Northern, crossing the Red Deer at Topham and then running on to Medicine Hat. The line will then run to Bassano and giving Medicine Hat direct line to Edmonton which will run through the richest wheat irrigation line in the province.

The new route is regarded as a masterpiece in railroad engineering, and it is to make complete arrangements for the construction of this work with the utmost dispatch.

### WEST DEPENDS ON BRITISH CREDIT

Declares Sir Edward Walker, Canadian Leading Financier

Toronto Sept. 24.—Sir Edward Walker, president of the Canadian Bank of Commerce, and one of the leading lights of Canadian finance of this country, gave an interesting commentary of the position of the Dominion in relation to Great Britain in one of his recent addresses. He said in part:

"We get 50 per cent. of our borrowed money from England, France, Holland

and Switzerland, the work on the line into Calgary that Sir Wm. Mackenzie and Sir Donald Mann are coming to Calgary.

English Viceroy, one of the veteran owners of the C. N. R. is the main reason for the new line through the "garden spot" of the C. P. R. line, which, that company has built up at the expense of millions of dollars, the Canadian Northern line, formerly projected to run from Vegreville south to Medicine Hat and then east to Saskatchewan, has been changed. For weeks past engineering parties have been working on a new route for the line and it is now stated that the provincial government has approved of the new route which will bring the line south from Corvallis instead of Vegreville, passing through Hanna on the southern Calgary line of the Canadian Northern, crossing the Red Deer at Topham and then running on to Medicine Hat. The line will then run to Bassano and giving Medicine Hat direct line to Edmonton which will run through the richest wheat irrigation line in the province.

The present spell of wet is hampering operations but not doing material harm.

Belgium and Germany all contribute proportionate shares, but the spine of Canada is the line of need of England. No other country has tried in us but she and our securities stand second to her least bond-holders. Again many will look askance when the necessity of these vast expenditures is made and wonder what interest in all this money and what the money is for. But we have no choice; it is the law of civilization that forces it. We must harness this country with the necessary facilities and other things to prepare for the great army of immigrants annually coming over here to our shores. This is a problem in itself which no other nation has been confronted with, and the cost of it is enormous.

(Continued on page 3)

### RECORD CROP ON F. MOSER FARM

Mr. Moser Inspecting His Holdings Here Proclaims Bright Future For Bassano

Frank W. Moser, of Chicago, Ill., arrived in Bassano on August 23rd, and is staying at the Hutton Hotel, for the purpose of looking after his extensive interests around Bassano. Mr. Moser declares his special interest in a farm of 160 acres where he is spending most of his time. He is the owner of 1720 acres which with 220 acres of land immediately adjoining belonging to his, present son Dan E. Moser, of Chicago, makes up a big farm given for western Canada. There are 800 acres in this area but completely under crop this year by the Hutton Bros. who have extensive shares in it. The farm is well located on high ground on the Bow River and it comprises all of sections 5-7 and 8 on the north side, of the river.

Mr. Moser declares there is a very favorable crop this year and that his inspection of the land has convinced him of the fertility of the land in the district and.

By Monday Sept. 2 practically all the grain was out except the flax, but they expected to cut most of this Wednesday morning. In crop this year, 500 acres of wheat, 250 of barley, 750 of oats, and 250 of flax. Last fall Mr. Moser says he rented a modern house which was described by J. C. Wright of the Crown Lumber plant as being the best little house in the country.

Mr. Moser is also the owner of considerable property adjacent to Bassano. He has a sixth interest in a valuable quarter section adjoining the C. P. R. Y. Point, and a full section south of Bassano. He has also two or three tracts in Bassano and owns a better part of the town, including the hotel. He expressed great confidence in the future of Bassano as well as in the farming in this locality. He and G. M. Patten spent Tuesday and Wednesday of this week in Calgary taking in the round up and, reports having had a grand good time. He expects to leave for Chicago early next week.

### H. NOLAN KILLED ON HUTTON TRAIL

Was Driving Into North Country With Contractor Rutledge

Fell Under Wagon Wheels

While Companion Was Lighting Pipe—Injured At Calgary

Falling from a wagon when driving H. Nolan, a carpenter well known in Bassano, was instantly killed when the wheels of the wagon went over him crushing in his skull on the trail immediately north of Hutton at the end of last week.

Mr. Nolan, it was learned, Bassano with a partner, Charles Rutledge, also a familiar figure to Bassano residents to undertake contracts in the country. They intended ultimately working their way north as far as the new town of Hutton.

They left Bassano Wednesday night with bright ambitions for the future in the new field in which they were venturing. They reached Hutton on Thursday evening, spent the night there and left early in the morning with their wagon. Rutledge was driving; Nolan was in a run of some age was sitting back of him on the wagon edge. According to the story of Mr. Rutledge he concentrated for a few moments in lighting his pipe. When he had finished he turned half round to say something to his companion but found him gone. Alarmed he looked back along the trail and there fifty yards behind was Nolan lying in the dust. Rutledge immediately ran to his assistance, and found Nolan terribly hurt. Rutledge accordingly drove posthaste into Hutton only a short distance away and procured help. The unfortunate man was unconscious when they returned and he passed away four hours later without regaining consciousness. The body was brought back to Bassano where the people were taking and placed in the undertaking parlors of E. T. Crey and removal later to Calgary for burial.

On the Job

In a quiet little country town, so quiet that the silence here is a commercial traveler cannot find a store. George, through to the parlor at the back behind the proprietor and a friend having a game of checkers.

Here, Mr. Shuman, he said in an energetic whisper, there are two customers in the shop.

Shuman never raised his eyes from the board. He merely shook his head and whispered in a low voice:

That's all right. Keep quiet and shoo 'em away again.

Shuman had a great deal of value and was not large enough to bring it to the coast.

\$100 Reward, Sir.

The readers of this paper will be pleased to hear that the reward of \$100 is now being offered for the capture of a certain person who has been seen in the vicinity of the town of Lethbridge, Alberta.

One great mistake made by many of the parents who object to training young children in the use of the discipline of the hand is that they do not do so.

How did you find your son or daughter? He is not so obedient and dutiful as he used to be. The reason is that he has not been trained in the use of the hand.

I made them obey absolutely. I said, in my discipline, I tried to be entirely fair, and I loved the work, was the answer.

So long as your children are so pleased that devoted love to the cause and accomplishment of the discipline you used not be afraid that they will drift away from you if you make him one of the family.

Begin with your first baby and, as you drill him in regular habits, as he grows and sleeping, accustom him to the method of obedience.

Time comes as it may—when you will witness a small child who, in his way, will tell you of his own way as possible, but when they come must then naturally.

A Sea Sandstorm

With the cold north wind, the officers crew were sailing at a rapid pace, returned from a desert trip, the ship, or Alvin, treacherously days from Columbia River, in command of Captain Abramson, arrived in San Diego, Cal., recently.

Being with your first baby and, as you drill him in regular habits, as he grows and sleeping, accustom him to the method of obedience.

This condition prevailed for two days, according to the crew, and not until the crew was able to get out of the desert. From that time on, the crew was able to get out of the desert.

Dated at Edmonton, Alberta, this Ninth day of July, 1912.

L. E. CLARKE,  
Deputy Attorney General.**ANOTHER SUCCESSFUL YEAR FOR WESTERN CANADA COLLEGE, CALGARY**

This well known Residential Day College for boys has just closed another very successful year. Over 140 boys between the ages of ten and twenty have been in attendance during the session, September 1911 to June 1912. Many of these students have written on the college files and the matriculation examinations for "the universities." The result of the latter are very gratifying, the head boy of the college passing very well in the McGill Arts Matriculation Examination.

The excellent work done in the Gymnasium and Swedish Drill classes reached a splendid climax at a public exhibition given in behalf of the general hospital, that was unstinted praise because of the fine bearing and finished action of every one of the sixty odd boys taking part.

The college continues its success in sending boys to the universities and to the various leading business houses and banks.

Though the present property is on permanent, yet it has been decided to install a hot system of ventilation to ensure the flow of fresh air. At the same time preparations for selling the present property and moving to the new grounds of 20 acres outside the city continue. During the year a number of the leading residential schools and colleges of Eastern Canada and the United States were visited and carefully studied. At present none of the best British schools are being investigated. The College will need a large and best equipped, and so money will be spared to that end. Western Canada College is entering upon its fifth year; it is the oldest, the largest and the best known college between Winnipeg and Vancouver. It was founded before Alberta and Saskatchewan became provinces, and its record of success in preparing boys for college and business is amply testified by the high places taken by the successful alumni and the testimonials received.

11 Threadneedle St., E.C. (G. M. C. HART SMITH, Assistant Manager)**"Get Your Canadian Home from the Canadian Pacific" WESTERN CANADA'S DAY**

This has been referred to as Canada's Century. In Western Canada we use no such general term. This is Canada's century, decade, year, month, week and day. With the passing of each twenty-four hour period, new business blocks and homes are under construction, new lines of railway have pushed on a little farther, and each day is brighter than the one preceding.

There is no safer or surer investment today than farm lands, or town lots, in Manitoba, Saskatchewan, and Alberta. If you wish your dollars to work every Western Canadian Day, call on or address

### AROUND TOWN

A. J. Robertson returned to Bassano this week.

Robertson and the boys are opening a selling office at the new townsite of Hanna.

All Bassano went up to the Stampede and saw the Haystack fight at Ogden.

A Council meeting will be held Monday to discuss the awarding of the tender for the water works pipe line.

Miss Core Oakes has gone to Strathmore to take a position in the Telephone Exchange at that town.

Mr. and Mrs. Geo. F. Watson and family have left Bassano for Victoria, B. C., where Mrs. Watson will take up her residence and Mr. Watson will return in about two weeks.

Our miller, Miss Webster has returned from Toronto where she has spent the past two months in the whole millinery establishment. She invites the ladies of Bassano and surrounding country to call and inspect her new fall hats.

John Klum, exports a pair of scales, a wagon elevator, and a cabinet of metal granularities in steel, which he intends to use here, in laying grain from the farm. It will be equipped to buy or handle all the grain tributary to Bassano at a better price than anyone else can give him before the rush.

Col. Warren, Bassano's well known stage driver, probably the best line hauler in the countryside made an inspection in the Stampede program at Calgary Monday last. The Colonel was on the box of an old time stage coach right in the heart of the procession and looked the admission and charge of the thousands who lined the route at march and Bassano certainly has every reason to be proud of the "Colonel".

Winnipeg, Sept. 4.—Western bankers issued a statement Tuesday night that 70 per cent of Western Canada was cut and that money was being freely loaned on new wheat crop which was in good condition. Bankers are much prepared to co-operate with the money necessary to finance the crop and are freely honoring drafts drawn on the new crop.

The wheat crop of this year is the best.

Mrs. (Capt.) H. A. Henshaw will receive of her home in Walling, B. C., about 700 bushels of wheat, the crop which she has been growing in the north as far as the Yukon. She and her son, Mr. Henshaw, are now in Portland, Oregon, visiting all the places of interest including Tacoma, Seattle, Victoria and Vancouver. Mrs. Henshaw is much pleased with the western country. She spent some time with her sister, Mrs. J. H. Henshaw of Bassano, Alta., and was accompanied by the family of Philadelphia. Mrs. Henshaw is the wife of Commander Henshaw of New York.

### AN ALL-STAR TEAM

With the Western Canada League season very much on the wane, the minds of some of the dyed in the wool fans turn naturally to the subject of all-star team and here is one sent to the Journal by a 25 degree Edmonton fanatic: Pitcher, Mandridge; Catcher, Hayes and Manning; Infielders, Dine and Hector; Outfielders, O'Brien; third base, Raymond; short stop, O'Brien; third base, Halloway; left field, Dine; center field, Williams; right field, Cox. "Crazy" team, indeed! and Dine. It is impossible to select an all-star team from the Western Canada League schedule, the Calgary Herald managed by that fine western, J. A. Smith.—Edmonton Journal.

### West Depends on British Credit.

(Continued from page 1)  
Proceeding the necessary funds for accomplishing this large number is the heavy tax that Canada has to contend with. Financial men in London say there is too much money in our Canadian vaults. But say no, it is only the credit of the British Empire that is the only thing that can save us. Then there is another phase to this loan from England. If she should stop giving us credit it is hardly likely that she ever will, but if she should—what other country in the world would have the confidence in us to extend us such credit? An independent or political independence would utterly destroy our credit. And that is our financial future rests on our British connections. If we wish to conserve the power of that great west, we must preserve our patriotic connections.

## Watches Cleaned Repaired and Adjusted

We adjust your watch to the correct time—and do not rest until we have made it so that it will hold to it. Our prices for repairing are just right and with our price goes the satisfaction of guaranteed service.

"This is the  
Range  
I Use—the  
GURNEY  
OXFORD"

When a range is recommended by one woman to another, it has met the final test.

The staunchest friends of the Gurney-Oxford Range are those women who have experience with it day in and day out. They know how dependable it is; they know that no other range gives such constant and unvarying satisfaction, not simply in management and economy, but in cooking results.

The Gurney-Oxford works constantly for its owner's peace of mind, and it supplements her efforts to make each meal one of absolute satisfaction.

Every woman who has had experience with the Gurney Economizer cannot help telling her friends the satisfaction of being able to regulate the fire by turning up or down one small lever. She tells about the flues that make and keep the oven always evenly heated, but above all she is enthusiastic about the golden brown biscuits, the light delicious bread and pastry, the roasts and fowl done to the queen's taste, that her Gurney-Oxford turns out.

The Gurney-Oxford owes its popularity to the recommendation of those for whom it works.
